

RING SIZER GUIDE

This guide is to be used with an existing ring to find out your ring size. Please use a ring with a similar band width to that you want to buy.

Step 1

Print this document out to 100% making sure that page scaling is set to 'none' on the printing dialogue box. Check the printed size by measuring the line below. It should be exactly 5cm.

Step 2

Place your ring on the chart below and match the inside edge of the ring to the circle nearest in size. For the most accurate fit ensure the inside edge of your ring just touches the outside edge of the circle leaving no gap. The black line must remain visible.

Step 3

The letter of the printed circle that fits best within your ring, is your ring size. If your ring falls somewhere between two sizes, please do communicate this as your ordered ring can be scaled half a size up or down.

5cm
